FLORIDA CHAPTER *One-Page!*

2008 AIIM Expo / Conference & Leadership Conference in Boston-Mar. 3-6

Florida Chapter, Leaders and Members bring home AIIM Awards

It was a very rewarding AIIM Show and Conference for the Florida Chapter as well as members and leaders. The AIIM Florida Chapter was the recipient of the Best Member Outreach Program

Award. One of only four individual Chapter awards annually, it is given for the event or activity that produces positive professional membership growth and retention of current members and for the continued involvement of its

current members. The growth of the Florida Chapter in both membership and in participation in the monthly events and what is considered by the AIIM International Board as creative approaches taken by the Chapter in communicating with its membership played a big role in the selection. The Show and Conference also honored the AIIM Florida Chapter president, Craig Laue with the AIIM Distinguished Service Award that is bestowed based on selection by the AIIM Awards Committee and the AIIM International Board. It was established

in 1973 and the Distinguished Service Award recognizes individuals whose service benefits the advancement of ECM technology through AIIM Chapters, national or international standards development, committee activity, or volunteerism.

A key, TRU-AIIM FLORIDA Leader Company, AnyDoc Software was awarded the Carl E. Nelson 2008 Best Practices Award.

This award recognizes excellence in the ECM field as AnyDoc has shown.

Best Practices denotes the standard of excellence that has been achieved with an organization and refers to a process that can be quantified, adapted, and repeated. AnyDoc was the recipient of the award for their installation of OCR for AnyDoc® at Allegheny County, the second-largest county in the State of Pennsylvania. The AIIM Florida Chapter, our president and valued member are proud of the awards received.

Thursday, March 20, 11:30 AM Chapter Event: Daniel Hughes from KnowledgeLake, Inc.

SharePoint® as a Document Management System

We look forward to seeing you at our event focusing on the very popular subject of SharePoint®. The AIIM Florida Chapter looked to the experts to provide you with the latest on the subject.

Daniel Hughes, Regional Manager for KnowledgeLake, Inc., who consult and provide expertise on SharePoint solutions and capabilities, will be focusing on what document management features are available in MOSS 2007, what is lacking, and where it fits in your ECM strategy. He'll also overview how Microsoft Office SharePoint Server 2007 is one of the fastest growing technology

products of 2007 and 2008. It has created a lot of buzz in the content management market

concerning its capabilities and shortcomings. The event will be held at Tech Data Corporation on Thurs., Mar. 20 at 11:30 AM at Bldg D, Room 1. 5350 Tech Data Dr. Clearwater, 33760.

To date, the RSVPs have been overwhelming. We certainly hope that you don't miss out. Register today at

<http://www.aiim.org/chapters/chapter-events.asp?EventID=4214&Task=Register>

Please make special note that this event will be held in Building D at the center of the Tech Data campus.

Informative February Event with Rebecca Bohms from Kofax on VRS

It is always a successful event when we invite Rebecca Bohms from Kofax to speak about VRS. February's event was no exception as an audience of 30+ members and guests learned about how VRS enables the user to scan particularly challenging documents. Given the popularity of the program and subject, those in attendance unanimously determined that the June Florida Chapter

event be a Touch-the-Technology Session that will involve hands-on learning. For the June 19th event, Kofax will be bringing in scanners in order to demonstrate to those attending how VRS and scanning technologies are applied. The audience will be further taught the use of VRS and the concepts of how challenging documents can be handled. The February meeting was introduced with an update by Keith Lanson of Tech Data that provided those in attendance with information as to how the host-company is increasing services to the ECM community. Look for more information regarding the June event.
