Having access to one's health records is an important part of maintaining one's health. Therefore, consumers should ask their care providers for copies of their health records produced and securely exchanged using PDF Healthcare.

This informational web seminar will describe what is PDF Healthcare, discuss the latest trends in electronic healthcare information exchange, and help patients, clinicians, and healthcare information system suppliers understand why PDF Healthcare can and should be used for managing and securely exchanging health-related information.

To register for the PDF Healthcare Informational Web Seminar, <https://www1.gotomeeting.com/register/704758264>.
