Well-educated, career-ready persons for
others

**HOPE Ignites**

**Well-educated,
career-ready
person for others**

**We believe in the potential of young people, and
orient our supports to holistic scholar development.**

**I am leading
in my community.**

**Scholars are giving back to Boys Hope Girls Hope and their
broader community with their passions, knowledge, and skills**

**I am on a path to
purpose and success.**

**Scholars are supported to identify, access, and succeed in the
postsecondary path aligned to their highest potential and aspiration.**

I am learning and thriving.

**Scholars engage in rigorous academic, social-emotional, identity, and spiritual
development required for success and fulfillment across all aspects of life.**

I am safe and known.

**Scholars are seen and valued for who they are as individuals by staff
members and fellow scholars, and their basic needs are well supported
(including housing, food, and mental/ physical health).**

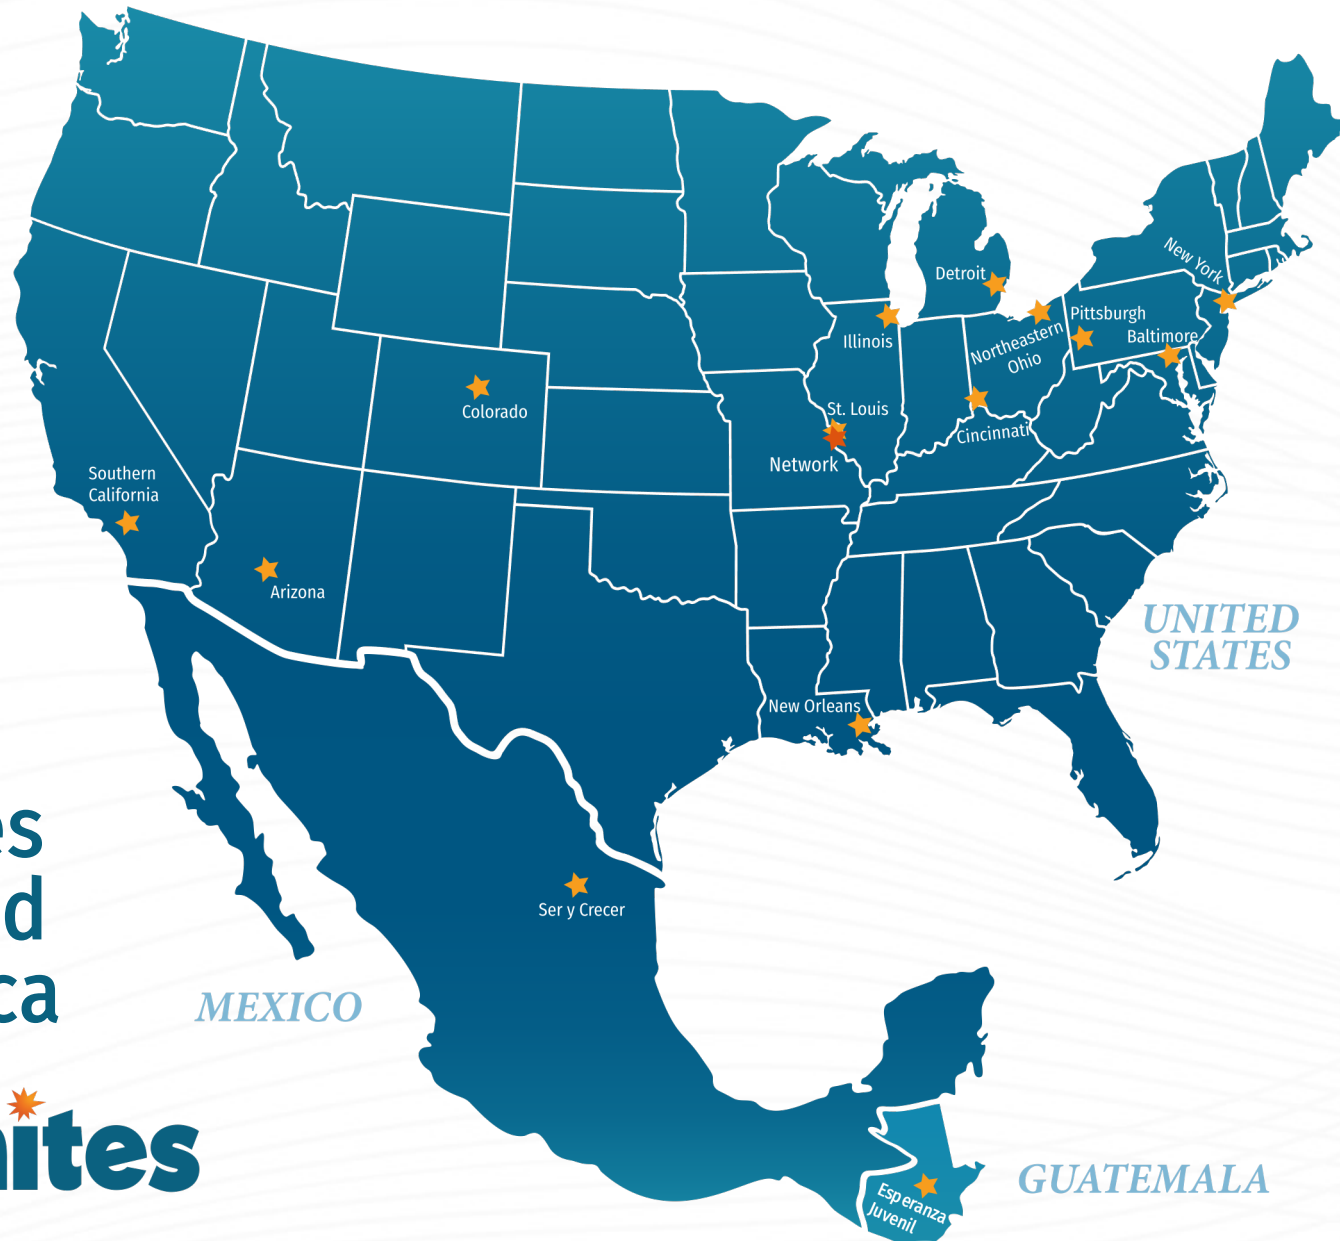

**Motivated young person
in need**

OUR TECHNOLOGY VISION STATEMENT

HOPE Ignites

Our goal is to deliver thoughtful technology that supports the mission and empowers our team members to excel in their roles.

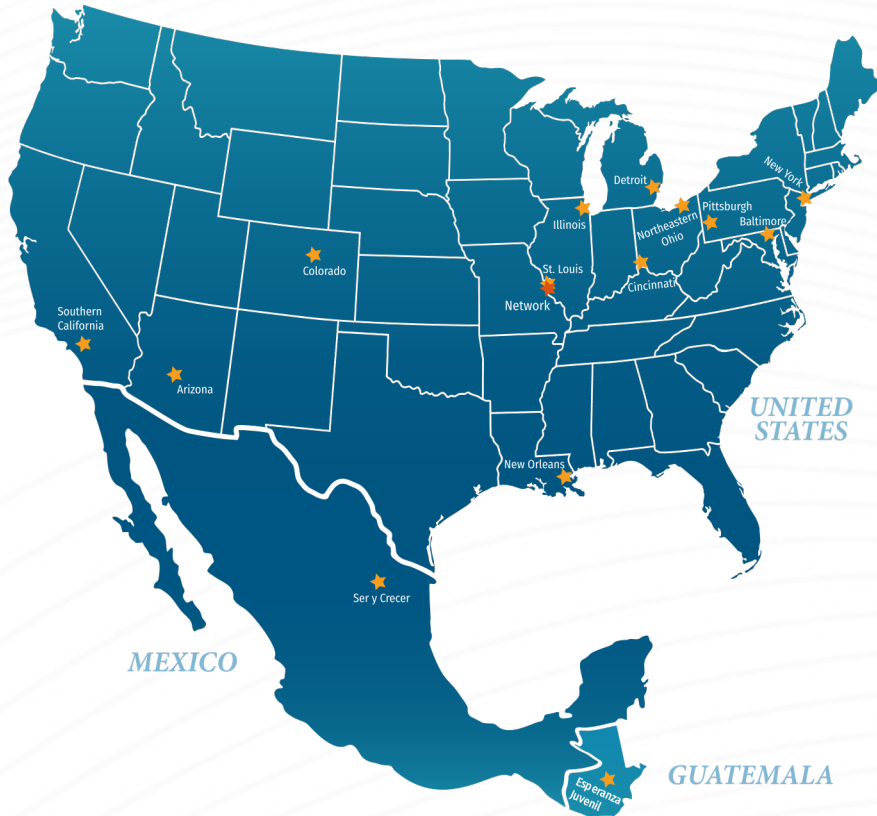

Technology should be complimentary to the work we do and enable users across the network to work efficiently.

OUR STORY WITH RICOH

DEPLOYING ACROSS THE US AND LATIN AMERICA

- **Cloud based** plug and play deployment
- **Easy** to provision and ship

Our Inspiration...

Micarah Young

| From Loss to Healing Others

After losing her father to gun violence at age 12, Micarah's family faced financial hardship and uncertainty. Referred by her principal, she found the structure and encouragement she needed through our program in Pittsburgh. The program provided essential skills guiding her to academic excellence. After graduating from Georgia State University with a nursing degree, Micarah now works as an ICU nurse at Wellstar Health System and is travelling the world in her free time. She credits the program for her disciplined and purposeful life.

"Boys Hope Girls Hope influences every decision I make today."

Juan Manuel 'Memo' Gomez

| From Struggle to the TEDx Stage

Memo grew up collecting recycled materials in Guatemala City's dumps, facing severe hardship to support his family. With vital support from Boys Hope Girls Hope in Guatemala, Memo excelled academically, graduating with a degree in Industrial Chemical Engineering. His accomplishments include a TEDx talk on water purification and becoming a plant supervisor at a multinational cement company. Memo's journey not only transformed his life but also inspired his family, including his younger brother, Daniel, who grew up alongside Memo at Boys Hope Girls Hope and recently earned his college degree in Architectural Engineering. Reflecting on how support and perseverance shaped his path, he says: *"It motivated me to be better."*

Our Inspiration...

Apshara Siwakoti

| From Refugee Camp to Future in Medicine

Apshara's journey from a Nepalese refugee camp to pursuing a career in medicine is a testament to her resilience and determination. Arriving in the U.S. at age 8, Apshara faced significant challenges but excelled academically, driven by her mother's emphasis on education. With support from Boys Hope Girls Hope of Colorado's Academy, she earned her Certified Nurse Aide license at 16 and a degree in molecular biology from the University of Denver at 20. Now a health analyst pursuing a master's in public health, Apshara remains committed to becoming a doctor and actively gives back to her community. Reflecting on her journey, she says: "I thought, 'These are the people that are going to guide me.'"

Dr. Dwayne Thomas II

| From Tragedy to Triumph

Dwayne's dream of becoming a doctor was fueled by his sister's battle with retinoblastoma, a rare eye cancer. Through Boys Hope Girls Hope of Baltimore, he demonstrated resilience ultimately earning his medical degree from Howard University. Now on the cusp of starting his General Surgery residency with the US Navy, Dwayne reflects on his journey with gratitude and a commitment to giving back. "I'm just forever grateful," he says, knowing that his past struggles have shaped his success and fueled his drive to make a difference.
